There's Standing Room

Because of many painful hours of practice, great determination, and a fabulous coach, Miss Walker, Union High School has won the State Championships in 2a schools for the past three years in the sport of Gymnastics. This team was the State Champs for 1982-83 school year. The participants and results for that season were; front row: ***Marlena Spencer*** (1st place bars), ***Wendy Nebeker*** *(1st place vault), and* ***Karen Beavers*** *(1st place floor exercise). Back row:* ***Kaelynne Spencer, Shannon Frandsen, Rhonda Davis.***

Only At The Top

Mural

It began as a N.A.H.S. project and soon grew to be much more. Many students eventually worked on the big mural that was hung in the Cougar Den.

Thousands of hours were spent by the students painting the individual blocks, tying the blocks together with a giant rainbow and finally putting on the final touches.

Mrs. Bolton, *art instructor, oversaw the entire process but allowed a lot of creative license.*

The scenes depicted on the mural range from a Skoal *can to a* $2 dollar bill. *They included wood shop, a chemistry lab, computer-headed people and* Adolf Hitler *with a ghetto-blaster.*

Union can be proud of a talent that not only includes athletics and academics, but also art. *This mural shows it all.*

Dedicated art students, like Heather W., *made the mural as great as it is.*

Long hours put in by Alison H. *and many others paid off with a superb finished product.*

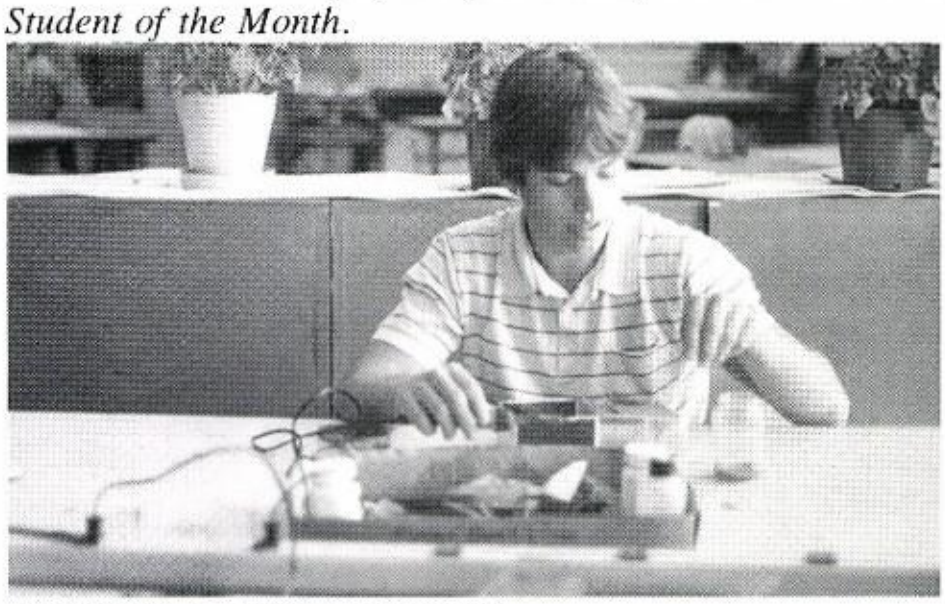
Front Row: *Clark Draney, Jill Sanders, Larry Squire, David Espanoza, Dennis Nelson.* Back Row: *Kelly Cook, Toni Hadden, Liesle Grover, Alison Evans, Heather Wilson, Alison Hubert, Ronnie Curry, JaCina Wilson.*

Art students like Jeff J. *like to have things just right.*

Dane G. *works on a cartoon of Hagar the Horrible.*

Art

JaCina W. *with many of her fine works, was honored as an Art Student of the Month.*



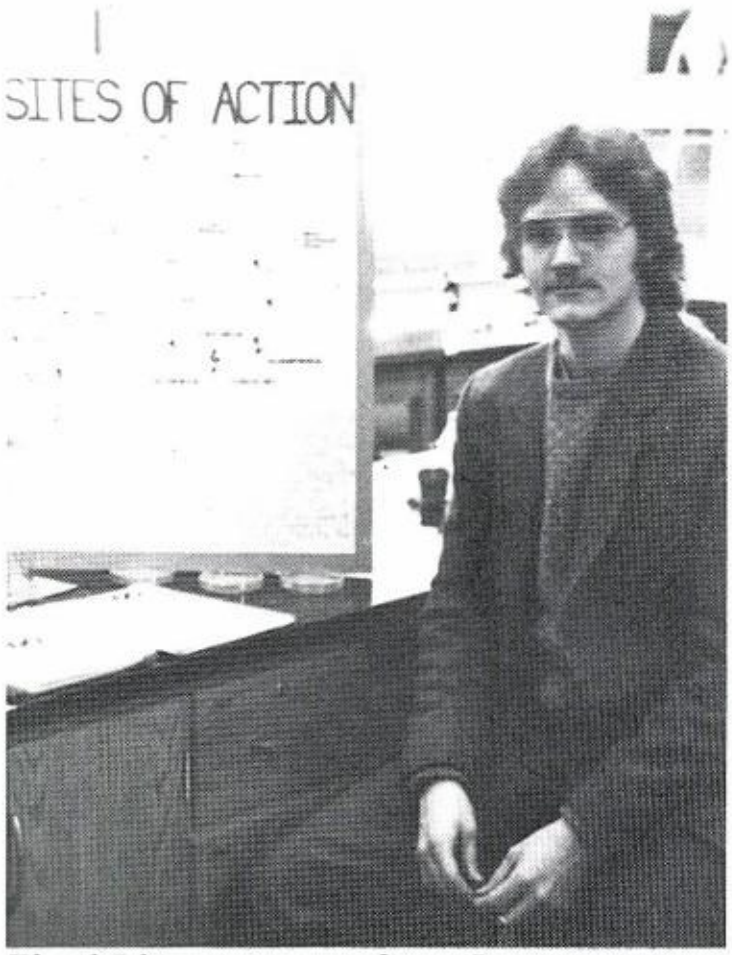
Robbie G. *in "Stained Glass"*

Michelle M. *was an Art Student of the Month also.*

Science Fair

Stephanie Malnar and her carrot clones were judged closely.

First-Place winner, Ronnie Mortensen *developed ways to rid the world of acid-rain.*



Third-Place winner, Greg Jones, *with his project on DNA.*

Acid rain and Carrot cloning. What? *Yes, these and about a dozen or so other subjects were well covered by science fair students at the annual Duchesne County Science Fair held at U.H.S.*

Dedicated chemists and physicists spent weeks in preparation for the big event. The aromatic smell of something? *combusting drifted from Mr. Merrill's room at all hours as* Ronnie Mortenson *concocted genuine acid-rain in his home built apparatus.* Tyler Jensen *spent an entire morning trying to fill a graduated cylinder with soap suds for his experiments on the speed of sound.*

When it was all said, sweated through and done, Union came out with two of the top three places. Ronnie *took first place and* Greg Jones *captured third. We also won the traveling trophy (which hasn't done much traveling because no one but Union has ever won it). Our ingenuity and intelligence had shown through again and we came out atop the heap.*

Physics Rocketry

Front Row: Laney Smith, Denny Jenkins, Catherine Lundstrom, Heather Wilson, Ron Mortensen, Mr. Merrill. Back Row: Kent Ashton, Jeff Burton, Dayne Medlyn, Scott Wilson, Bryan Elderege, Jeff Madsen, Ron Winterton, Tyler Jensen.

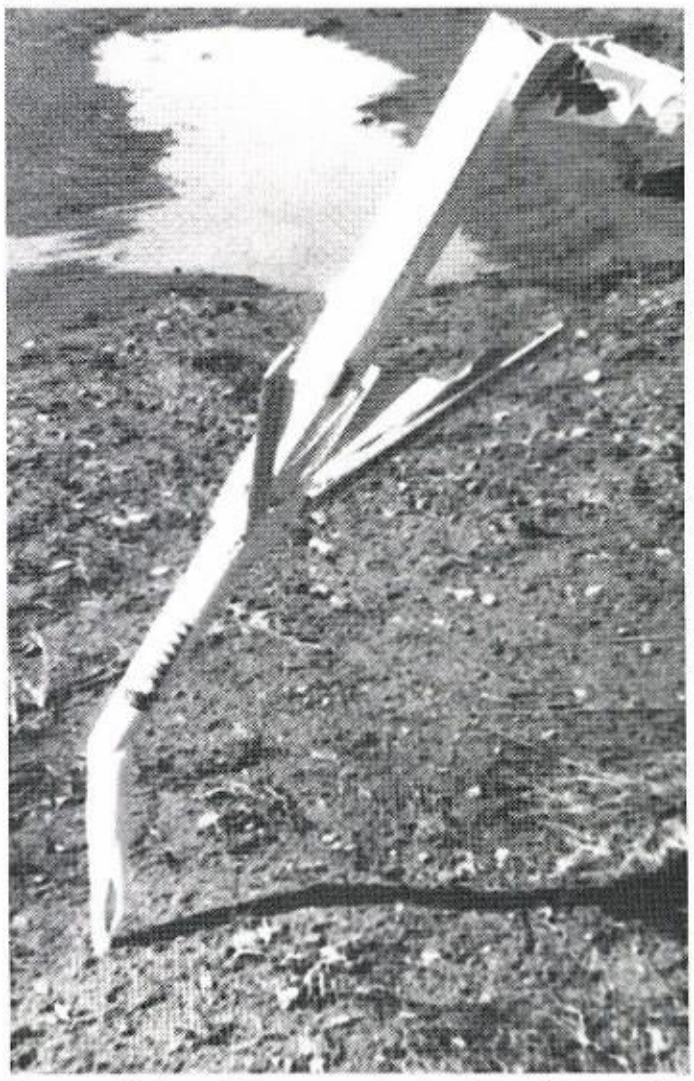
Ronnie M. *gets set to launch one of the* successful *rockets.*

Since the launcher didn't work, wires on the end of batteries had to do.

Whizz! BANG! A rocket blasts off into the morning sky, and explodes. 3rd hour physics is up to their usual antics. This new class pulled a few stunts through the year.

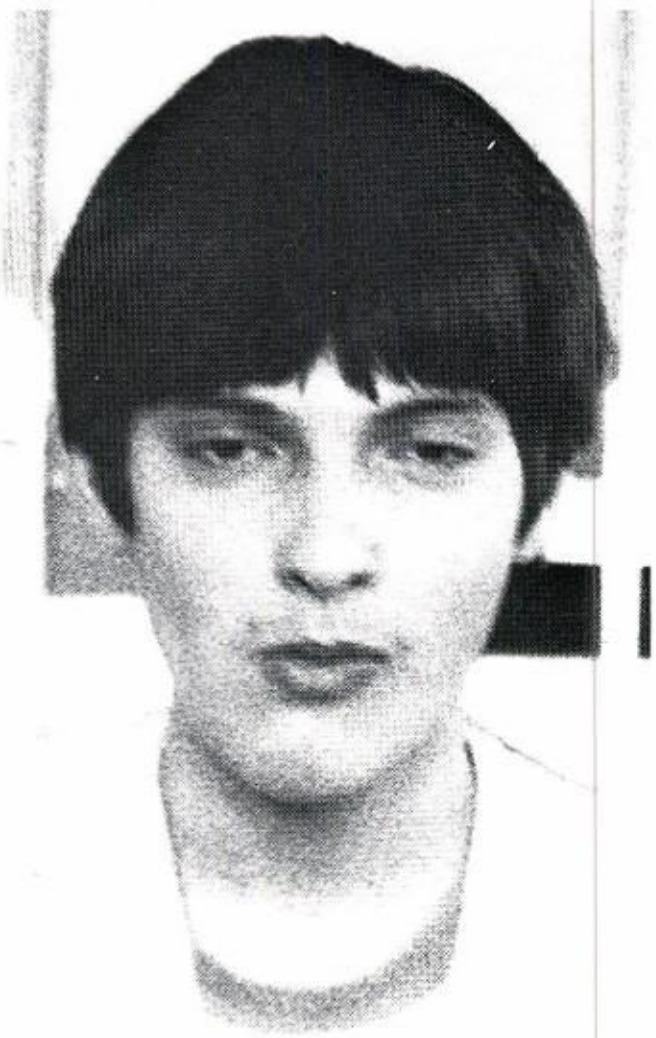
Fourth hour physiology often came to class smelling popcorn. Third hour had the stuff many times.

The biggest event of the year was the building and launching of model rockets. Despite delays due to cold weather all the rockets were launched (or attempted). Some blast offs met with disaster, for instance, Laney Smith's *glider craft exploded almost immediately after launch and came down in a quag-mire, nose-first.* Tyler Jensen's *exploded after launch also. His came down in a rain of pieces.*



Laney S.'s *glider wrecked after it's engine blew apart and knocked it* way *off course.*

There were times you wondered if Ricardo *was an escapee from an insane asylum.*



Ricardo Calasans

His big smile lit up the halls of Union *for nearly three months.*

For those of us who got to know this black-eyed, dark-haired from Sao Paulo, it was a little chunk of our lives we won't forget. Ricardo Calasans (from Brazil) arrived here during the third quarter. At first he sat by himself in all his classes and at lunch. Gradually we began to notice him and he became more open and friendly and talkative. By the time he left in March he was talking our ears off.

He obviously liked it here in Roosevelt. Over and over again he said he would like to come back after awhile. What did he like the best here? According to him, he liked his friends. Then, with a laugh, he said, ". . . and the pizza, we don't have pizza this good in Brasil."

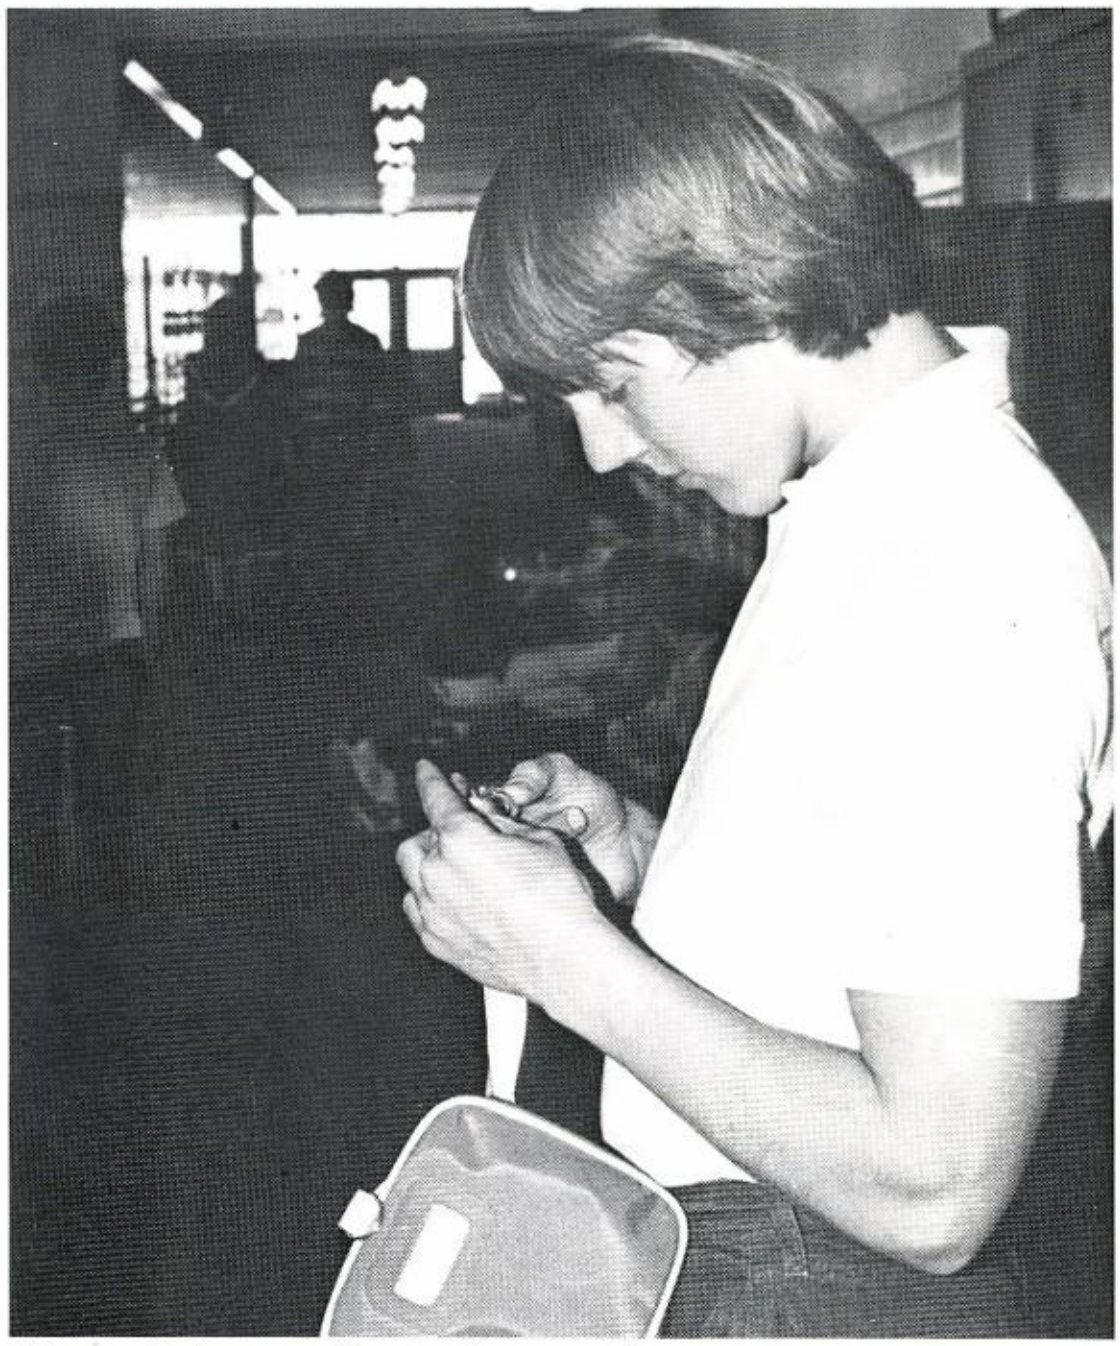
Jr. Rings: Precious Metal

"Let me see your ring.", sounded through the halls of U.H.S. on December 9. A Josten's America representative was in the school with jr. rings.

The line to pick up the rings began to form during lunch with eager juniors waiting to see their ". . . expensive, but worth it." rings. Finally the man asked the first person in the line, ". . . name?" The time had come.

After he figured out your name (his hearing didn't seem to be very good) and found your precious little plastic bag he asked for the balance of your ring's cost. That's where people started to faint. Some balances were as high as $200.00 for real gold (genuine metal, the real stuff). Others were as little (if you call it little) as $90.00 for marvelite.

Except for a few "fatty" fingers who had to send their rings back to be resized, everyone was pretty much happy. If we don't lose them, our jr. rings will be a great reminder of our junior year. Junior rings are precious metal.



Shaugn O. inspects his *precious metal.*

"Wow, I'd like one of those!" thinks Lydia K. of Debbie J.'s ring.

Happiness is a new junior ring to Honie R.

Wood Shop

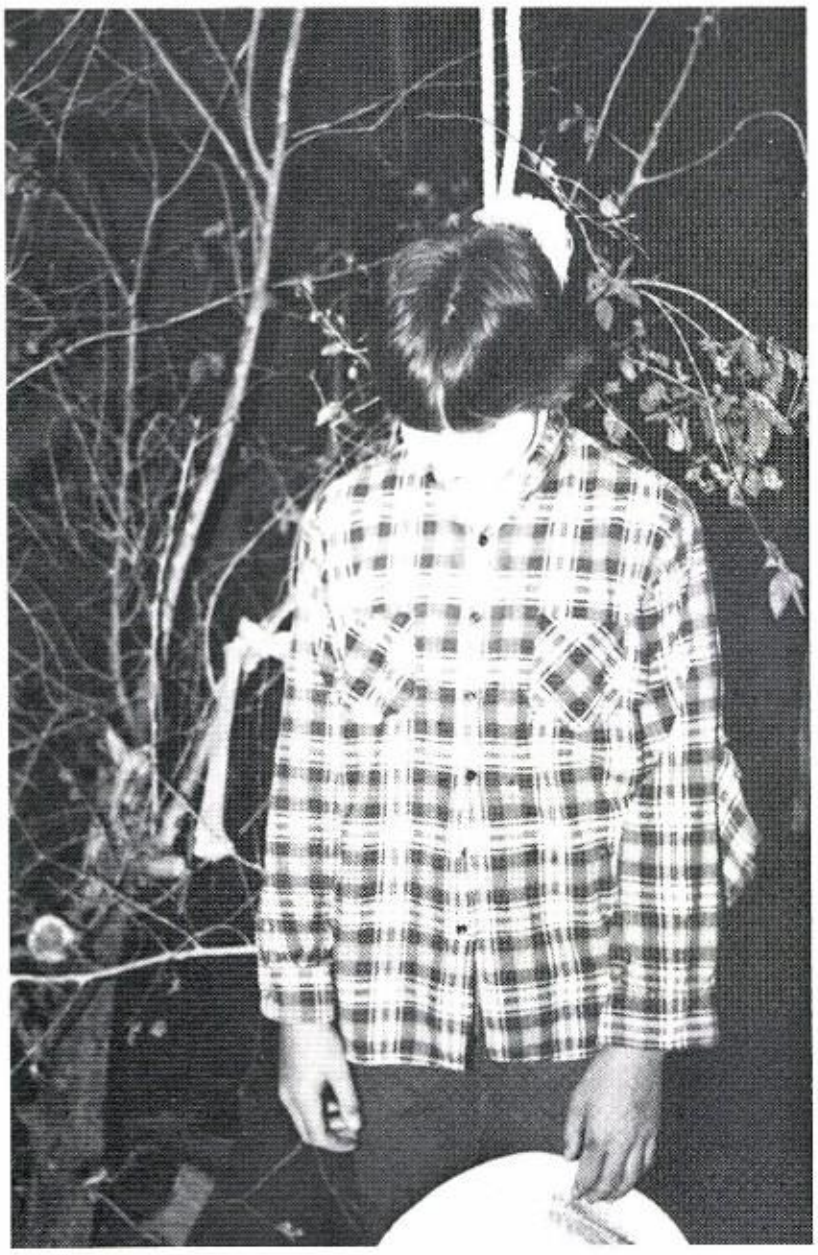
Cut, glue, sand, turn, shape, stain and polish.

LeAnn T. *''works'' at sanding a board for her project.*

Brad R.'s *bed isn't long enough for him so he made this table to sleep on.*

Ornate designs adorn Ron W.'s *beautiful cabinet.*

Cedar City participants were: Front: Kent Ashton, Brad Rassmussen, Connie Richens, Josh Anderson, Shawn Lewis, LeAnn Taylor, Advisor Dallas Reynolds. Back: Ron Winn, Clifford Lee, Trevor Birchell, Aaron Reary.



Many students participated in the Haunted House.

Regina C. *is attacked by* Matt L. *while* Stephanie M. *ensorcells her.*

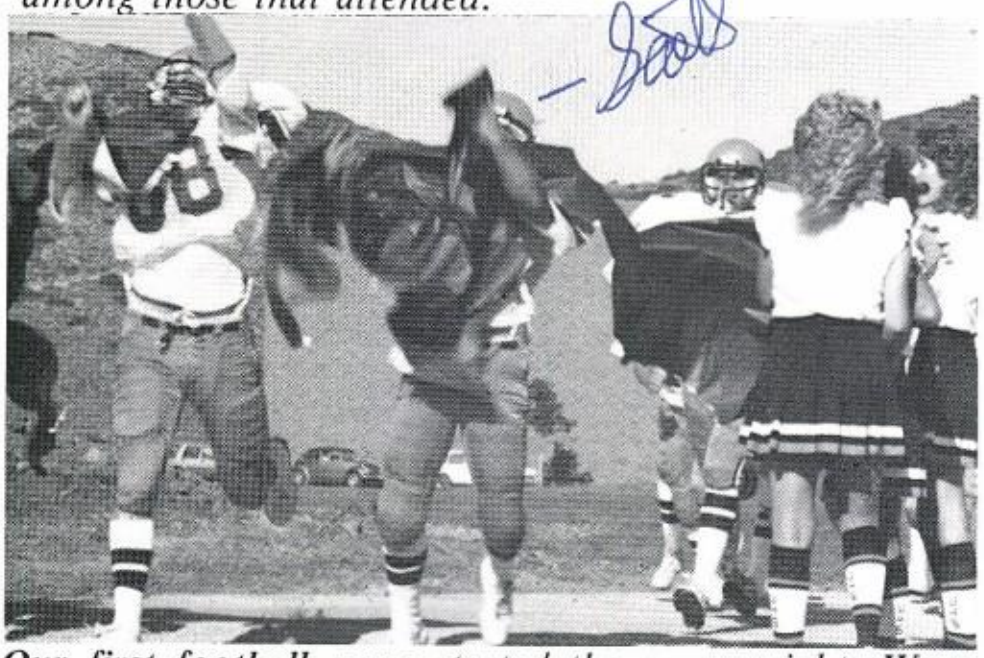
Haunted House

Mad doctors, vicious killers and gruesome dead people. Visitors (or victims) to the Second Annual Haunted House enjoyed the ghouls and spooks. Probably the biggest fund raiser in the school, it was a big success with jr. high and high school age kids.

According to Mrs. Dunsmore, "if it wasn't for the Haunted House, we wouldn't be able to do a musical production."

Student Life

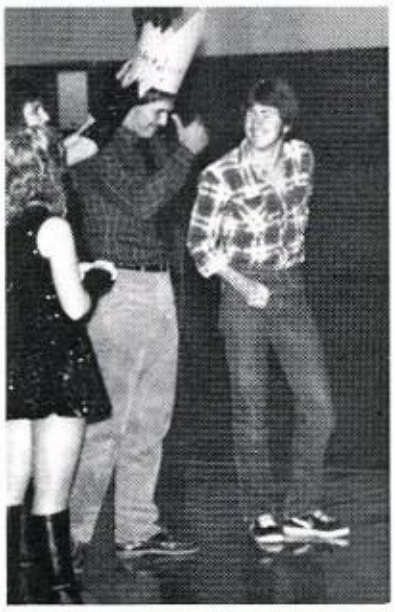
Super Saturday *attracted many area youth.* ***Rena L.*** *was among those that attended.*



Our first football game *started the season right. We defeated Park City 14-12.*

Tana S. *looks at what is left of Mr. Merrill's fish after they were roasted one weekend by a faulty thermostat.*

Chad R. *was crowned king after he got the most ''Big-Mouths'' to open their's.*



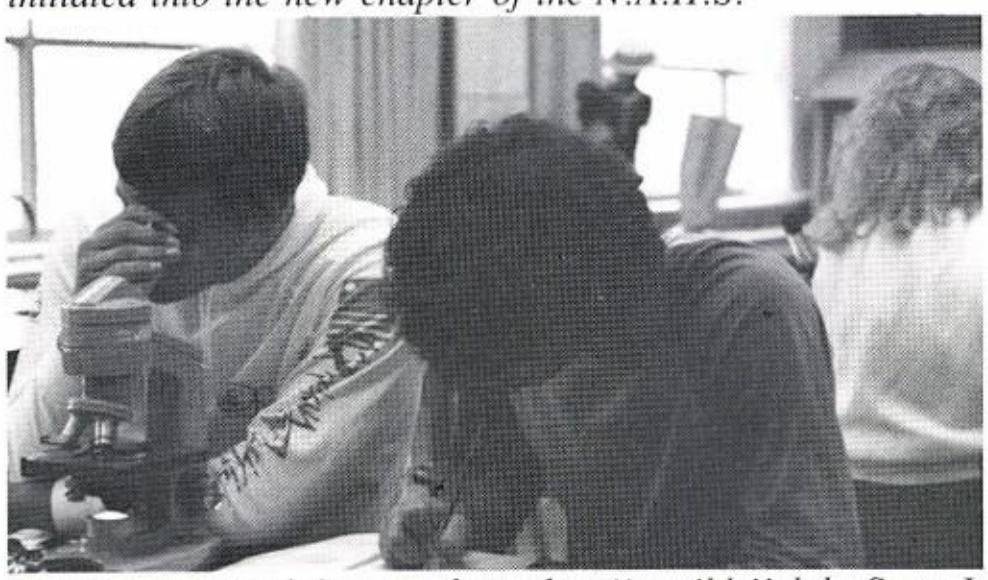
Cosmo *gets down at the pep-assembly before our last football game.*

The life of a senior *is never dull, at least not when* Shelley J. *is around.*

''I guess that's why they call it the blues—time on my hands that could be time spent with you.''

There is that fickle time, once in a while, when we are waiting for things to get up and get going, when life comes up to us and whacks us on the funny bone. *We squint our eyes and pucker up at the weird pain and try not to get sidetracked from our routines. But, then something in our brain goes ''click'' and we say to ourselves, ''Oh, why not?''*

This floating grin *(which we think belongs to* Alison E.*) was initiated into the new chapter of the N.A.H.S.*



Fourth hour physiology *and another ''terrible'' lab.* Scott J. *and* Brett W. *work together.*

Doug B. *and* Kevin L. *to pick up all the cards we spilled.* ''Oh well, why not??''

The Great Wheel Robbery

One of the culprits took off to Boo-Boo Africa with his wheel.

The mysterious wheel thieves struck repeatedly and without warning.

The victim had his own rebuttal to the incident.

"*I can't lecture without my wheels!*" *exclaimed* Mr. Corry. *One fine morning, the* Big "C" *came to his classroom and found all the wheels of both his carts missing. The culprits remained anonymous for awhile, but, eventually, began to bargin with* "Spaz-attack." *They wanted to get extra-credit points for the return of the wheels.*

One day there appeared a poster in Mr. "C's" *room. It was a* wanted poster *for* Wheel*Dro and* Roll*and. The reward for the return of the wheels and apprehension of the criminals was 100 extra-credit points. The* Big "C" *declined the proposition.*

Finally, after threats from Mr. Wolff, the culprits returned the wheels. All of them that they could, that is. One was gone, far across the ocean to Austria, with Laney Smith.

Joyce Bolton—8 yrs. teaching

After eight years of teaching art at West Jr. High and Union High, Mrs. Joyce Bolton *is retiring. Many of us knew her and had classes from her and will miss her.*

Mrs. Bolton *became interested in art when she saw a contest to draw a wallpaper design. She entered and* Won! *Her design was published in a magazine. To quote her daughter, ". . . it was awful, but she won." She meant, of course, that the styles then and now are different.*

Mrs. Bolton *is recognized and appreciated for her work in the* Fine Arts Fair *and the sterling scholar program. Her sterling scholar in art last year Won! This has got to say something for this fine woman.*

She has inspired us, helped us and made us achieve what we wanted from ourselves in art. We will always thank her for her ability to work with students no matter what their ability. Her many paintings of elves *and* trolls *is evidence of her greatest personal attribute, as stated by her close friend, Mrs. Griffin,* "She believes!"

Being a senior has its ups and downs. Graduation is a big up, heading out into the world all by yourself is a down. Turning 18 and being considered an adult is an up, turning 18 and your parents still won't let you stay out past 8:30 p.m. is a down. Becoming a senior and realizing that your girlfriend is now a senior too is an up, becoming a senior and realizing that your boyfriend has now moved on to college is a down.

Having American Problems with all seniors is an up, having World History (for the third time) with all sophomores is a down. Passing all your classes the **last** *quarter is an up, flunking the Constitution Test* **again** *is a down. Ruling the school is a definite up, having Mr. Woolf crack down on you is a real down. The Class of '84 can be proud because they helped make this year a Big, Big UP!!*

7 wins — 2 losses, 2nd in Region

With a new coach and an experienced QB, the Cougar football team started out the 83-84 season strong, defeating Park City on Miner turf. From there on win after win came, joyously. We beat both Wasatch and Uintah, after losing to them last year.

Then came the Region championships. Many loyal fans traveled to far-off Morgan to watch our team compete. In freezing cold, Union fans watched them go down for the first time of the season. It sure made for a long ride home.

State play-offs were next. When UHS met the N.S. Hawks on the field, they gave us the biggest upset of the year. Through the first half, we dominated the scoreboard 21-3. Then in the fateful second half, the "Chicken"-Hawks found some secret reserves of energy and came back to win 28-21.

Seven wins and only two losses is a great season. None of it would have been possible without determination and guts from our team. Cougars, we think you're GREAT!!

Defeat! It was joyously ground into the souls of Wasatch. Our Cougar volleyball team beat the Wasps on two occasions, both by 2 games to one. In other games, the girls faired well winning 53% of their games.

The team travelled to Green River, Wyoming for a tournament. There they lost to both Rock Springs and Evanston.

In state play-offs, the Lady Cats beat both Morgan and Grantsville. Then in the actual state tournament, they lost to Manti and again defeated Morgan.

Debra B. serves for another point.

Lady Cougars have lots of spirit.

Go for it! Debra B.

Girl's basketball has never gone so far in the history of Union High School as it did this year. With a Region championship title and a 2nd Place win at the State Tourney, the Lady Cats won 17 of their 20 games. This was undoubtedly the best record ever achieved by the girl's team.

Basketball was the name of the game when our boys stepped on to the floor. They made a team effort to Go Fight Win.

The team won the annual Cougar Invitational. The participants were Union, Palisades, East Carbon, and Uintah. The Cougars won one game with a score of over one hundred points.

In the first game against the "Bees", the Cougar team dropped behind early, but came back to tighten the score from a 17 pt. trail. The crowd was wild with excitement towards the closing minutes of the game. With the score tied, an ill-fated call by the ref gave Wasatch one more penalty shot. They made it, and the game was over.

Build those biceps, thicken those thighs and of course, flatten that fanny. Members of the weightlifting classes had these goals constantly in mind. To get this way, the weightlifters push, pull, pump, and lift thousands of pounds. Tired and sore muscles accompanied their daily workouts, but it was worth it.

Many kids lift weights to get in shape for another sport they enjoy, while others just want to improve their physique. Let's face it . . . kids are starting to shape up.

The Gymnastics team has out done itself by going undefeated for three seasons. They accomplished this by holding practice every morning at 7:00 a.m.

Because of lack of participation in 2A gymnastics this year, the 2A schools competed in 3A and 4A competition. A special meet was held to determine those who would qualify for the state competition.

Union,** Emery, Park City, and Richfield participated with Union coming out on top. We scored 173.45 points to 2nd place, Park City's 141.45. Three girls qualified for the state meet from Union: **Wendy Nebeker, Kaelynne Spencer** and **Maria Hunt.

Being a Junior has its ups and downs. Getting a class ring is an up, but paying for it is a down. Getting through the first quarter and passing all of your classes is an up, but knowing you have three more to go is a down.

Passing the Constitution test the first time through is an up, but taking the heavy history book home for a month is a down.

Going to the Prom is an up, tripping during the promenade is a down.

Looking forward to being a Senior and how great the Seniors will be, is an up. Knowing you have to wait a year before getting a chance to rule is a down.

Not getting called a Stupid Sophomore is an up, but getting called a Jerky Junior is a down.

But on the average the year 83-84 was an up.

The Student Government consists of not only the student Body Officers, but also the Class Officers. Together they discuss many topics concerning the students and school as a whole. Each group of class officers plan activities for their individual class. All the officers as a whole go over the school constitution and see if it needs updated. They work together to make things better for the school as a whole and for the individual student.

Troupe had an exciting year this year, they performed for Governor Matheson, farm bureau, Secretaries Luncheon, Utah State Credit Union Association, Chamber of Commerce, Holley Fair, and the Roosevelt City Christmas Party. This newly formed group is comprised of music and drama students. They were organized to give those students interested in the performing arts a chance to develop and show their talents. We encourage more students to tryout next year.

Somehow, the N. Sanpete Chicken-Hawks kidnapped our cheerleaders, they tried to imitate them but we saw through their disguises right away.

With limitless determination our cheerleaders stuck to the job, through rain or snow (literally) they cheered us on to victory.

The contest to choose the cheerleaders took place last spring so the girls practiced together through a good portion of the summer.

These sixteen girls were an important ingredient to the year in sports and we all enjoyed their antics and colorful posters.

N.A.H.S.

2nd hour Gifted Art, only the best!

They never cease trying for a "perfect" picture.

Water color, oil paints, you name it, they do it.

Two cancelled trips during the year. Twice National Art Honor Society members got geared up for field-trips to various art shows, twice they were let down by bad weather.

With the only chapter in Utah, Union proudly boasts nearly 20 members. These members are chosen for their talent in, you guessed it, art. Not only that, but attitude, citizenship, and scholarship.

N.A.H.S. members have had many chances to boast their talent. The museum in Springville has exhibited a lot of work by Union students. Local exhibition included a display in the District office in Duchesne and the Fine Arts Fair.

In March, N.A.H.S. members attended the USU High School Art Workshop. They spent the night in Logan.

New members were sworn in on April 26th at a banquet at Frontier Grill. Most of these were sophomores.

The Friendship Club begins the year off with an open house in which the members sign up. Throughout the year, members participate in parties and meetings. Sleigh riding was one of the events enjoyed by the members. They discuss basketball, volleyball and intermural programs. The planning and preparing of Indian Week and Intermountain Friendship Days are part of their activities for the year.

At the beginning of almost every home basketball game you couldn't help but notice the tantalizing smell of popcorn around. The National Honor Society provided us with this treat, at a price, of course.

They used the money to spend a great evening at the Capri Fun Center *and their trip in the spring.*

The criteria for entrance to the N.H.S. was stiff. A minimum of 3.6 (A-) grade point average was required. If the members fell below this mark they received a letter of probation. Two quarters in a row below 3.6 and they were expelled. Needless to say, members made a conscious effort to stay above an A- average.

Day two, Snowbird. Skiing was better, for they had practice from the first day. The day was finished off with a few short-sheeted beds.

Distributive Education Clubs of America is more commonly known as D.E.C.A. During the year, the members are involved in several activities. A leadership training conference at Snowbird is just one of these. Members are involved in such fund-raisers as: selling candy, seafood, pom-poms, and holking booths at the Holly Fair. D.E.C.A. also creates a float to ride in the Homecoming Parade.

F.B.L.A.

F.B.L.A. is short for Future Business Leaders of America. In this club, members participate in many activities. Area, Regional, State, and National Competitions are just a few. The officers travel to Spokane Washington for a Western Regional Leadership Conference, and to a State Leadership Conference at Snowbird. Money making projects, such as: Holly Fair Booths, Santa Claus pictures, Scones, and the Fishpond are to pay for competitions and Leadership Conferences.

Have you ever wondered what V.I.C.A. stands for? Well here it is, Vocational Industrial Clubs of America. Having parties in the hills is not the only thing that the members participate in. They have gathered wood for raising funds. During V.I.C.A. week, members take part in the daily activities. A snow sculpture contest with other clubs is just one of these. The state officers meet at Union and stay overnight. A major event of the year is a convention held in the Utah Technical College in Salt Lake City. Members of the club participate in several different skills, such as: carpentry, mechanics, etc. They also have a display in which Union V.I.C.A. members have won almost every year.

The F.H.A. is an organization to help youth develop leadership and homemaking skills. The members have the opportunity to improve themselves in all areas. Such as "Families and Futures" and Peer Education.

This year the F.H.A. has participated in many activities. An Opening Social was held early in the year to welcome new members. They entered a float in the Homecoming parade, and worked with the F.F.A. on the Harvest Ball. The Region F.H.A. convention was hosted by our F.H.A. Chapter.

The F.H.A. participates in many conventions and service projects as well as a lot of fun parties.

The F.F.A. is an organization which offers a wide variety of opportunities. It gives a large amount of members leadership opportunites as well as training in Parliamentary Procedure, Public Speaking, Care and Knowledge of crops and animals. The F.F.A. also teaches responsibility and service.

This year our chapter started out with the annual opening social with the highlight for this being a frog jumping contest. We didn't have Greenhand Initiation, but replaced it with an orientation to better inform our Greenhands of F.F.A. We sponsored the Sweetheart Contest, Donkey Basketball, and co sponsored the Harvest Ball with the F.H.A. The BOAC projects were shoveling snow off the greens at the golf course and painting picnic tables at the park.

Getting out of Jr. High is an up. Being on the bottom of the ladder is a down. It is definitely a down, when it takes you two class periods to find your first hour class. Walking down Sophomore Hall is a down, but eventually making it to the Jr. Hall is an up. Attending Sophomore orientation is a down, however, getting out of class is an up. Competing with a Senior for the Spirit Stick is a down. Being 16 is an up, but being 15 is a down. Getting to drive is an up, but wrecking the Driver's Ed. car is a down. Making it on the Drill Team is an up. Getting to date is an up. Being able to eat lunch at Dove's is an up, but having to clean up your hall is a down. Being tardy is a down. When at the end of the year, you're finally used to being teased about being a Sophy, it is an extraordinary up. Living in fear of "Sophomore Kill Day" is completely a down. It is definitely an up, when at the end of the year, you realize there was no "Sophomore Kill Day!"

The school musical this year was a great success! It had one of the biggest crowds in years. Closing night it was sold out, and they were still selling standing room tickets.

The set was fantastic, one of the best we have ever had. It was rented from Granger and Taylorsville High School.

''Hello Dolly took more time and practice hours than any other play, because of the very large cast and the many singing and dancing numbers. One of the biggest challenges was trying to teach the boys to dance'', said director Tana Dunsmore.

The costumes were very elaborate. Some were especially made, others purchased, and some rented from the Wedding Train.

Many people went away saying that they thought the play was very professionally done.

Girls State

June 1983

Voting, government rules and appreciation of America were a few things girls from Union learned at Girls State. *It was held for seven days in Cedar City, Utah.*

During their stay, they had to elect senators, judges, governors and other city officials which made up each individual "city". All the cities then joined together to make Girls State.

The Cedar City police force came for a day to show the girls what goes on in a court of law. Judges and attornies, who were elected, participated in the mock-trial. (New friends were made and experiences shared.)

At the end of Girls State *the girls as a whole elected a governor for next year. The new governor is to return next year and reign over the new* Girls State.

Boys State

June 1983

Food fight! The guys at Boys State had many of these. One of the best was the pizza fight. Along with these happenings, many got stuck in the elevator. The guys really got rowdy.

Staying up all night and sleeping during the lectures about the government was a usual sight. Everyone had to get up at 6:00 every morning for reveille. It was an easy way to wake those tired bones.

The boys stayed one week to learn government rules and elect city officials. It was a great experience that everyone shared.

The most newspapers published in the recorded history of Union High has been ten issues in one year; however, this year the Cougar Outlook Staff has improved considerably. The Journalism class published 30 issues, breaking the school record.

Union is the only high school in Utah that prints a newspaper every week.

The paper is self-supporting because of the ads sold each week.

All graphic art and typesetting is done by the students, no other 2A school does their own typesetting.

Keep up the good work!

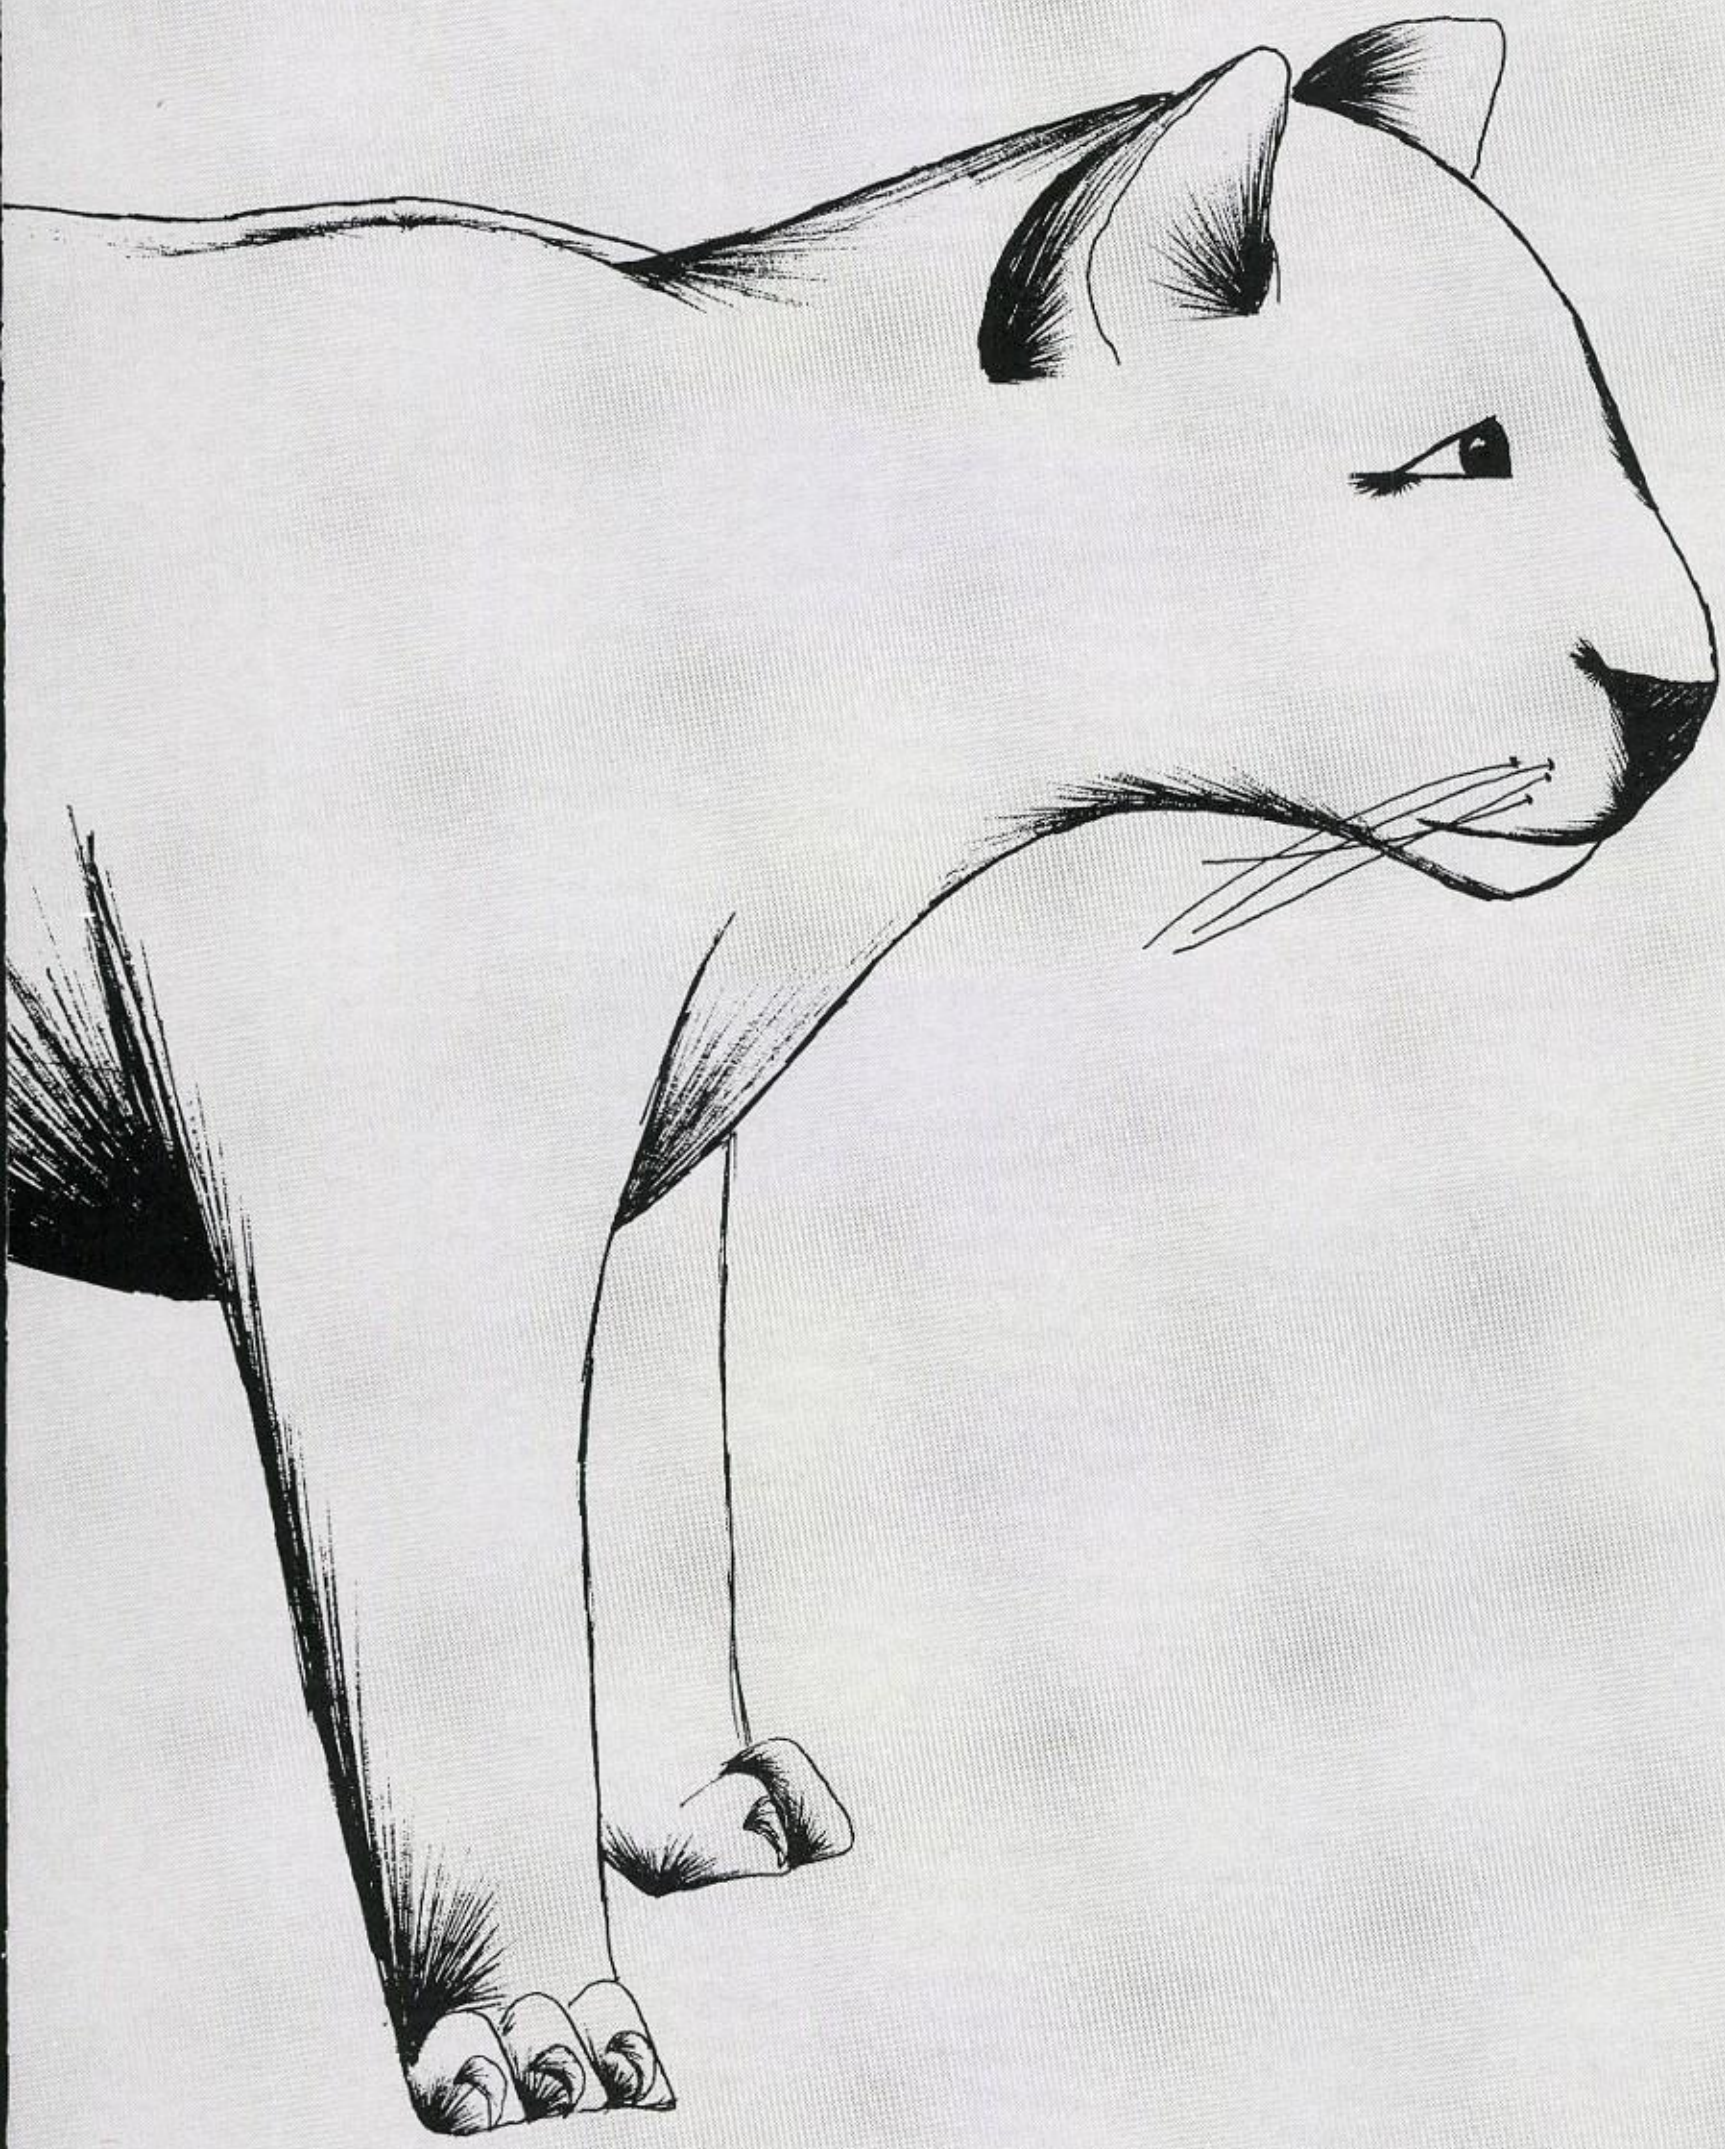
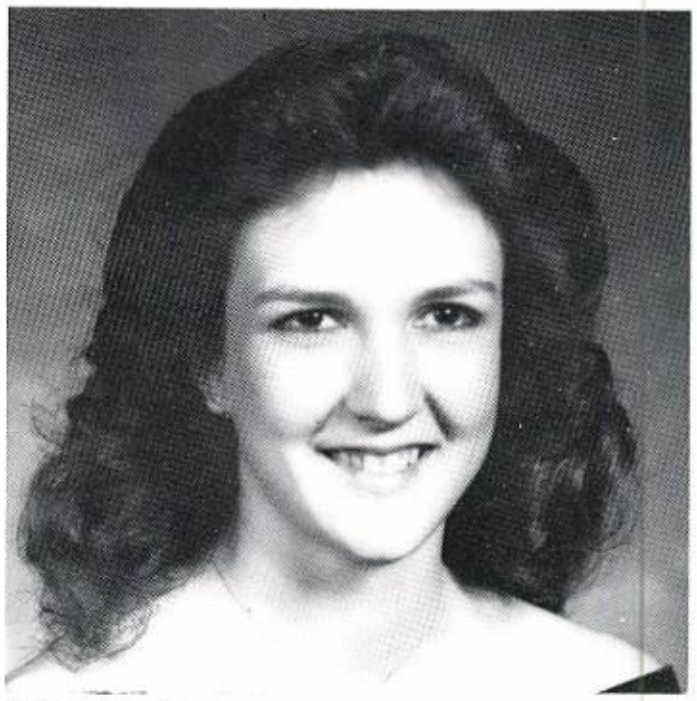
HONORS



Senior

Toni Hadden

Roosevelt City Chamber of Commerce Business Award



Tina Heaton

Roosevelt City Chamber of Commerce Citizenship Award

Senior Honors are ten awards designed to give special recognition to those students who have set an example of excellence during their years at Union. Two of the awards are from the city, six are selected by the faculty, one is selected by class rank and one by vote of the cheerleaders and student council. For the first time the Roosevelt City Chamber of Commerce has contributed to these by selecting someone in the field of Business and by commending a student who shows good citizenship. The Outstanding Scholar Award recognizes the student with the third highest G.P.A. while completing a minimum of 12 solid courses. The Gracious Womanhood Award and the Paul Murphy Award are given to the boy and girl who best display honesty, citizenship, humility and a concern for fellowmen.

Carol Percival

Distinguished Service Award

Students were sought out who had displayed some very special talents in Leadership and Service and were recognized by the Distinguished Leadership Award and the Distinguished Service Award. These honors are presented to the students who have been outstanding in leading the school activities and organizations and by giving outstanding service to the school through time spent getting the tasks at Union accomplished. The Gordon Jennings Award is given as a tribute to a man who showed great concern for others and is given to a Football player-Eagle Scout, and exemplary citizen whose personal life parallels Gordon's. The Cougar Spirit Award is given to the student who has worked and helped the school develop spirit and unity. The Rex Curry Award is an award for the Native American student who has been a participant in school activities, successful in academics and a leader among students.

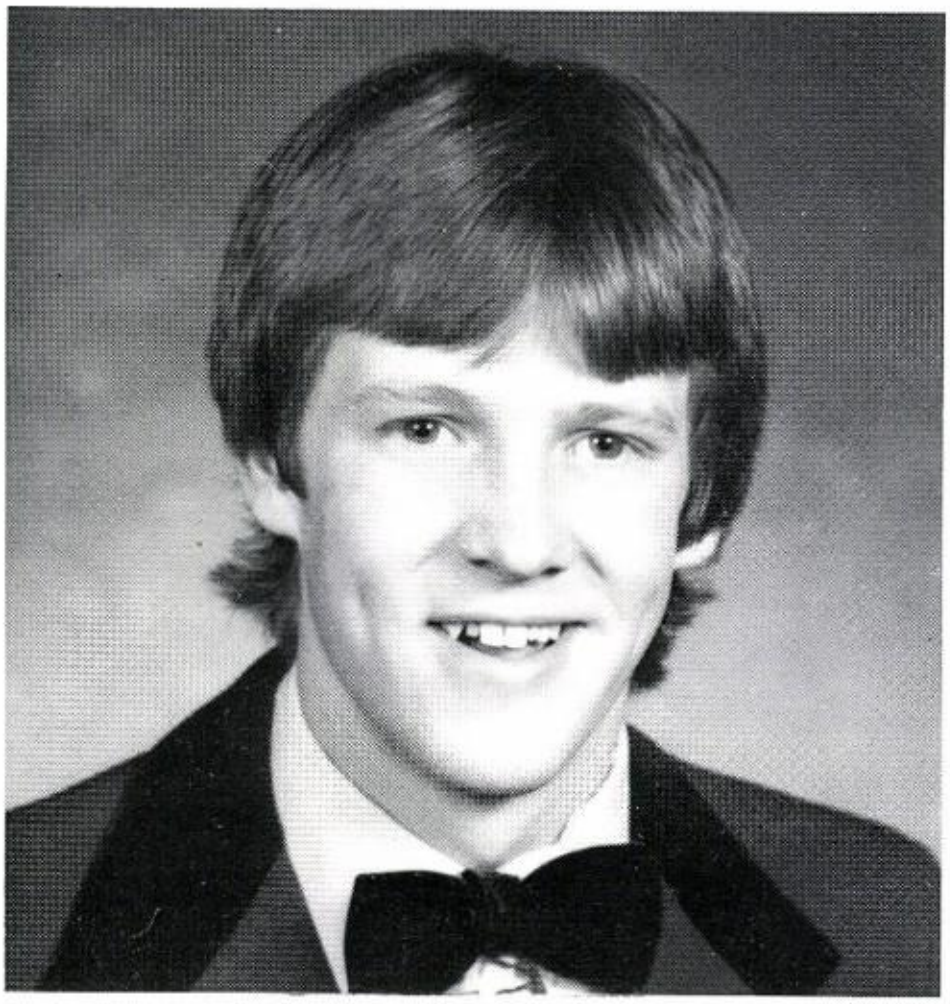
Outstanding Boy

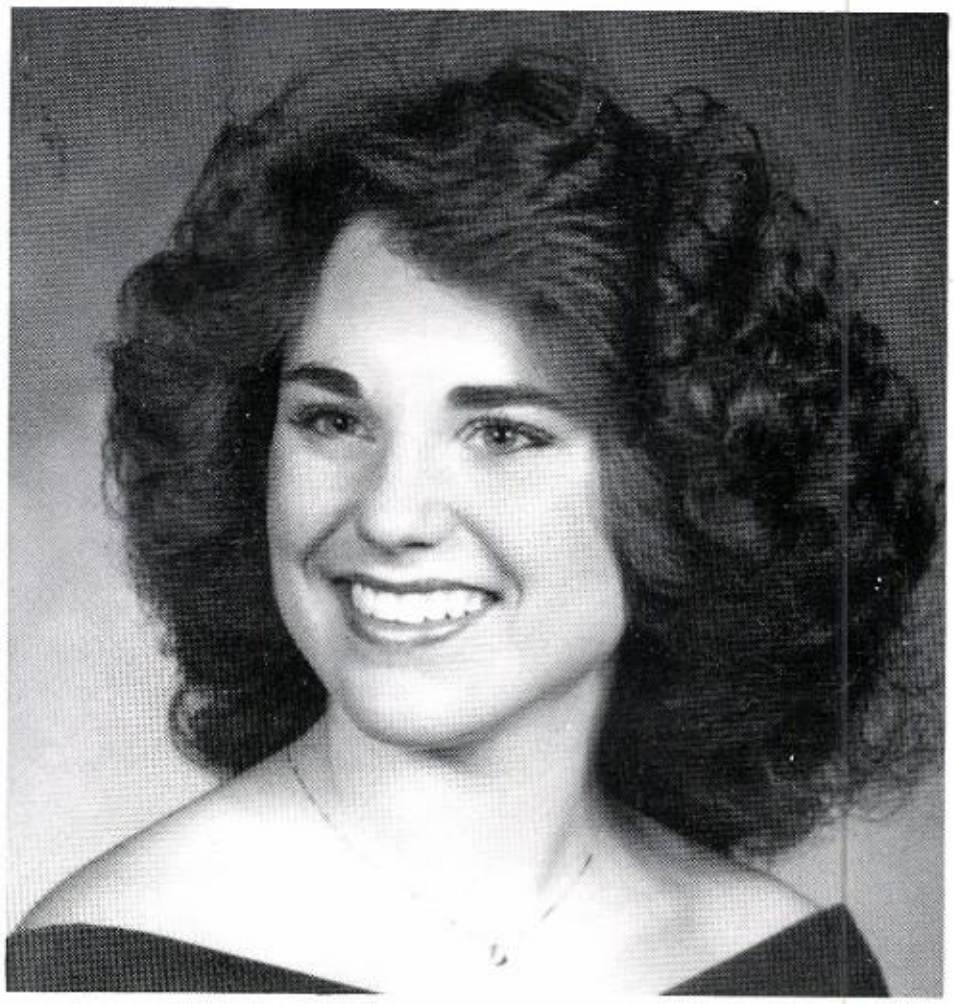


Ronnie Mortensen

The honor of Outstanding Senior Boy is given by the faculty of Union High to the boy they feel has been an excellent example of the educational process. This student must have been a hard working student and an outstanding example of good citizenship. He will also usually have participated in a large variety of activities. He must be willing to give of his own time in the way of extra-curricular activities and requirements of both students and staff. Ronnie has done these things. He has been on the basketball team for three years, cross country team for two years, a participant in the Science Fair each year and winning first place with his senior project. He has also participated with the school in the Model U.N. organization. He has been the manager of the girls Volleyball team and was a Student Coach for the Girls Basketball team. He has been in the Honor Society and has shown outstanding knowledge in the areas of General History and the Constitution, which he displayed in the district Knowledge Bowl. He received the Student of the Quarter award, was recognized as a Student of the Month and is the Sterling Scholar of Union in the field of Social Studies. He has been an active member of the Student Council for two years in both elected and appointed positions and was chosen as "Hardest Worker" by his senior classmates. During May of his junior year he attended a Freedom Leadership Conference sponsored by the Freedoms Foundation of Valley Forge and traveled throughout the Washington, D.C. area through this scholarship. Ronnie is truly an Outstanding Senior Boy.

Senior

The award of Outstanding Senior Girl is designed t recognize a student who is outstanding and a excellent example of the type of an individual Unio can be proud of. Penny fits this criteria. Her outstandin vocal talent has been enjoyed by all on numerous occasion and her flashing smile shows her enthusiasm. Penny ha been active in the Drama-Forensics department for all thre of her years at Union, being a member of the 1982-8 Forensics State Champion Team, participating in debat and dramatic readings. As a sophomore she was firs attendant to the Sweetheart Royalty and was an attendant t Roosevelt's Junior Miss. She has been an active member o the Cougarette Drill Team her sophomore and senior yea and was Football and Basketball Cheerleader her junio year. She participated in Guys and Dolls as a junior and the played the lead role in "Hello Dolly" her senior year. He scholastic abilities are evident in her membership in th Honor Society and as the Salutatorian. Her senio classmates recognized her as the "Most Talented" and sh is the Sterling Scholar in the field of General Scholarship These credentials definitely show why Penny was selected b the faculty as the Outstanding Senior Girl.



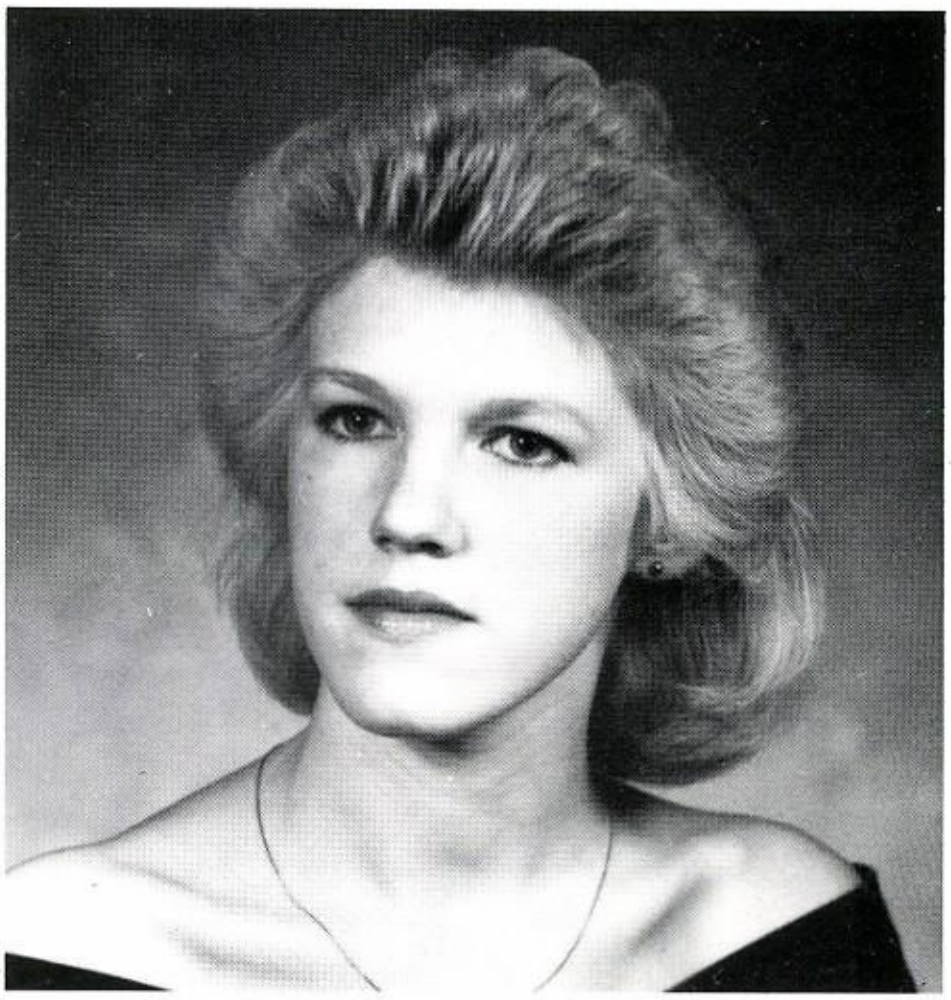
Penny Rawlings

Outstanding Girl

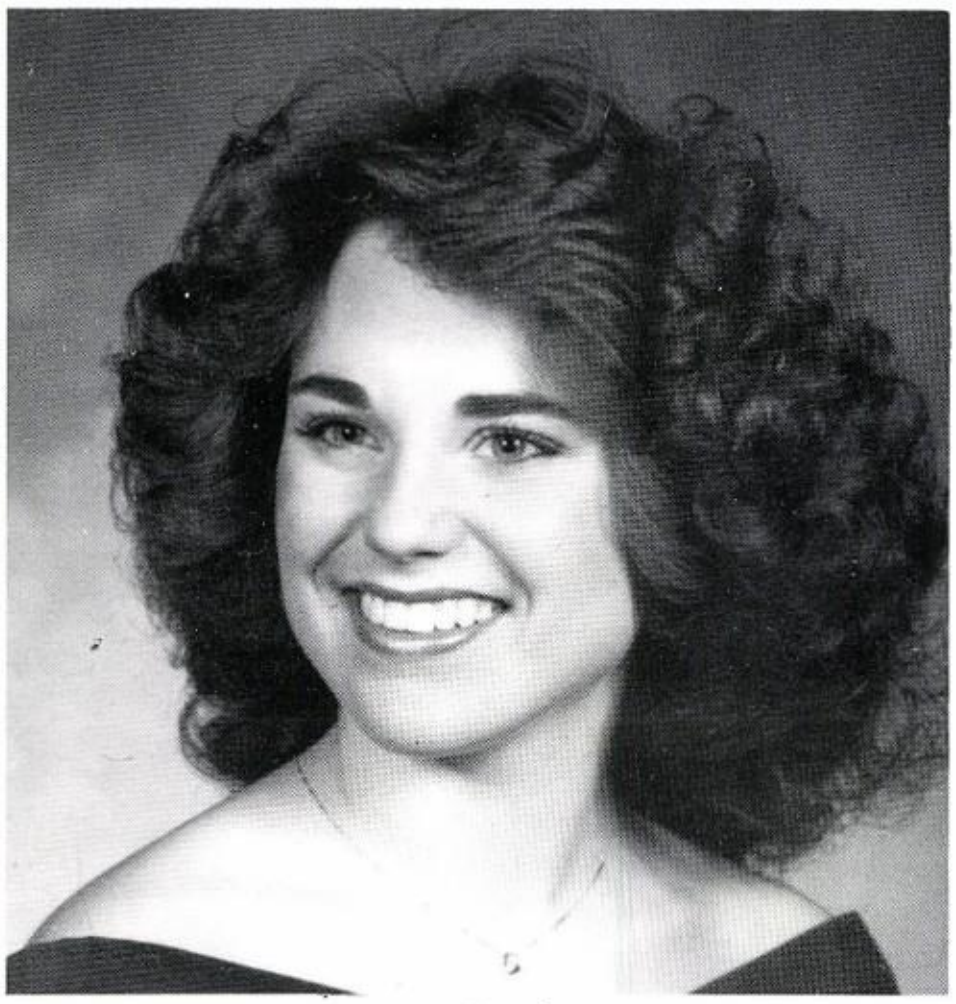
Achievers

Salutatorian

Penny has been named Salutatorian with a 3.959 overall G.P.A. She has worked hard and has put a lot of time into the necessary study involved in an achievement of this type. Penny has been Student of the Month and Student of the Quarter while attending Union. She has participated in various beauty pageants and has an exceptional musical talent. Penny has been active in Drama, Forensics, Drill team, Troop, Honor Society, and Varsity Cheerleader. She played the lead in the school production of Hello Dolly. Penny is the Sterling Scholar from Union in the area of General Scholarship. She has been enrolled in the college classes and the advanced classes at Union. Through her hard work and dedication Penny has truly earned the honor of Salutatorian.



Diane Steinhorst



Penny Rawlings

Valedictorian

A lot of time, hard work, and dedication goes into receiving an honor of such great esteem as that of Valedictorian. Diane has truly earned this distinction because of her 3.975 overall G.P.A. She moved from Wisconsin, where she was Representative of the Sophomore class, to Union at the beginning of her Junior year. Diane has been active in debate, foreign language, Honor Society, Academic Decathalon, Model U.N., and Troop. As well as being involved in these activities she has excelled academically through taking several college classes during her Junior and Senior year and also enrolling in advanced classes at Union. Diane is Union's Sterling Scholar in the field of foreign language and has worked very hard to attain this honor of Valedictorian.

Sterling scholars are a select group of students who have put together a portfolio showing past accomplishments. There are twelve different areas in which the students compete.

They competed with others from the region to get a scholarship in the area they have chosen. This year the competition was held at Uintah High School. More and more students get involved each year with this program. It's a terrific way to earn a scholarship.

The future will come, despite what we do; will we and our schools be prepared to cope with the 21st Century? To meet the challenges we must plan now for tomorrow and prepare students now for a different world. Today's industrial giants do not lack such vision and commitment, in fact, it is because of this vision and planning that they have reached their present levels of success and will continue to grow and prosper by changing and adjusting to what lies ahead. Our schools are this nation's largest industry, they too, should grow and prosper because of visions, planning and commitment to the future.

— P.R. Thompson —

I believe that each person is different and that we need to recognize and accept the individuality of each person and tailor our educational program to fit the needs of individuals. *This means that each child cannot be forced into a like mold in which they move along step by step or course by course. An educational system should prepare people to be successful adults and positive contributors to society.*

—A.L. Taylor —

Ron Wolff
Principal

I believe the purpose of secondary education is to help each student experience personal success while being provided the oppourtunities to develop basic skills and gain a better understanding of life.

I hope our experience at Union High School will make us "winners" in the game of life. As we depart from this shared experience, I hope we will be dedicated to the concepts of equality, freedom and justice. I also hope that we will have gained the necessary skills and desire to continue to learn throughout the rest of our existence. A man truly dies when he is no longer willing to learn.

—R. Wolff —

The young people of today are in a special situation because they are neither small children nor adults. Still, much is expected of them. In public schools, a program must be adopted to meet their needs; therefore, emphasis needs to be placed on their preparation for life. Reading and writing skills are critical, along with problem-solving skills. Administration, faculty and staff must set goals with students which will accomplish long-range achievements with every student.

Edwin Cuch *and* Stan Allen *spend many hours with students.*

At Union High School we adhere to the philosophy that each student is a unique individual with individual differences, possessing varying abilities, interests and attitudes. We feel it is the role of the school counselor to be an advocate for the student in helping him to obtain an appropriate education and in providing the opportunity for him to develop toward his potential.

New this year, Gary Black *has also helped a great many students.*

You may think, after so many years teaching, teachers would become immune to the ups and downs in school. Actually they don't. Their lives are one giant roller coaster ride, just like ours.

Taking valium every morning helps give the day an up. Having the wheels stolen off your cart is a down. Missing your daily Tab *is a down. Having lunch with the boys at the Rawlings' Bologna Joint is an up. Leaving the* Tums *home before a trip in the Drivers' Ed. car is a down.*

Having your tropical fish, salamanders and frogs roasted over the weekend is down. Once a week, giving a test to unprepared students is an up.

Teachers sometimes get dizzy from all the ups and downs, but they survive and, in the end, they help us all survive. We say "thank you" to them for that, at least.

"School years should be looked back on with fondness and they should teach all that is needed to begin a successful second phase of life.

Serving the "best interests of the student" must be the underlying philosophy of all policies, guidlines and procedures that are established for the conduct of public education. Education is the single most important facet of our free democratic society and the key to perpetuation of the constitutionally established rights and privilieges of American citizens and a productive, competitive economy.

Education is more than the three R's. It also includes refining thinking abilities. . .both logical and creative it includes embracing ethical standards, it includes helping students to be aware of their obligation in a community; then enriches life.

A good education provides principles which help us solve problems and make wise decisions. Nothing is as exciting as learning something new. What you have learned no one can steal from you. Perhaps it is the only thing we can take with us when we leave this earth.

A good education is very important for someone pursuing a career in drafting. A person who does not spell well, communicate well or who does not have a good backgound in math will not go far in the work force.

Students who take advantage of carpentry can obtain basic job skills. However, working contractors will select only the best qualified carpenters and top students. There is, as always, room at the top of any trade for the person who really wants to be there.

The spectacles of experience; through them will you see clearly a second time.''

From the outside, looking in, many of the accomplishments and projects we see seem insignificant or not worth-while. We, too often, fail to realize the work and dedication put into them. High school yearbooks are like this; you never really see the work until you've done it. The work and dedication put into the '83-'84 yearbook by the Yoon-Yun *staff far surpasses almost every accomplishment of the year.*

Could I get you

Carol (or is it Scum,)

You know Carol, I haven't Realy told you just how much you Realy Mean to Me. I know I've told you so many things that you probably didn't want to hear, but thanks for having that Listening Ear in my times of Need- or Stupidity — which ever it be. You know as I sit here and think about All the things that we have done together sure makes me want to Go back and do them all over again Carol I want you to know that you are one that has been more like an Idol to me, because you can do the things that I Always wanted to do and never could, I look up to you - (you know what I mean) if only I could tell you what I want to say but things would get too mushy and then your this page would be All Soggy - anyway you know track was Super it Realy was - even though you weren't able to Run I know you would have Been our state champ you have that ability in you and next year I'm coming to see you Run at State and "win" if things will Allow me too, As your Running think of me the person that tried an failed and says you have to do it for me too Carol you are so cool. Make Next year your Best to all that you want and be good at it - like you Always Are. Carol Love you Millions More than you Know your My Athlete in my book - well you and Mari; that's - Well I must end this before you start pulling your hair out. Carol again thanks your special - (Not that way)

With love.

Jeanne Kelly

Seymur,

You're a great friend. I love you down to your bones. I'm so glad we were both in sports together & some classes. You are a very dedicated person & a good example to me.

Love ya!

Alison Hubert

To Seymen Muire -

So I can't spell your name!
What! This years been great, Esper.
So will be next! Lets take STATE next
